PROFILE

Business Analyst with 5+ years of experience turning data into insights, reports and process improvements, now moving into data analytics**.** Trained in Data Analytics (SQL, Tableau, ETL) and AWS Certified Cloud Practitioner. Looking for a data and AI role in tech where I can combine business understanding with technical analysis.

SKILLS

Tools & Technologies: SQL, Tableau, Power BI, Advanced Excel, ETL, Microsoft Office & SharePoint, Agile/Scrum, GitHub.

Core Skills: Data Analysis, Data Preparation & Transformation, Reporting & Business Intelligence, Data Storytelling, Stakeholder Engagement, Process Optimisation, ERP & Data Management, Process Mapping.

PROJECTS

Data Analytics Projects

Hands-on projects using real-world datasets

- Analysed structured government request datasets to identify trends, anomalies and service gaps that support process improvements.
- Cleaned, validated and transformed complex datasets using ETL principles to improve reporting accuracy and data quality.
- Built dashboards and analytical reports in SQL, Tableau and Excel to communicate insights to different stakeholders.
- Produced reports with data-driven recommendations to support business decision-making.

EXPERIENCE

Operations & Administration Assistant | Big Crunch Sushi, Melbourne | Oct 2025 – Present

- Manage stock records and issue invoices, keeping documentation accurate for daily operations.
- Automated box calculation for invoices with a custom Google Sheets function (Apps Script) based on a bin packing algorithm, replacing manual estimates and manual refresh steps.
- Prepare labels and paperwork for production, supporting a smooth order flow.

Customer Service Representative | Hospitality & Aged Care | Jan 2018 – Sep 2025

- Built trusted relationships with clients, families and multidisciplinary professionals through clear communication and problem-solving.
- Coordinated appointments, maintained accurate records and prioritised competing tasks to ensure continuity of service.

Business Analyst | Valeo Thermal Bus Systems | Jun 2016 – Sep 2017

- Analysed customer purchasing behaviour, operational data and performance metrics to identify trends, investigate business issues and support commercial decision-making.

- Partnered with commercial managers across different regions to deliver analytical insights and recommendations that supported customer retention and business growth.
- Investigated order fulfilment bottlenecks, analysed root causes and collaborated cross-functionally to implement process improvements, contributing to a 20% increase in on-time deliveries.
- Produced reports, monitored operational performance and translated data into actionable insights for stakeholders across Sales, Supply Chain and Operations.

Business Analyst | Keko Automotive | Feb 2012 – May 2016

- Supported the implementation of an ERP system, improving operational efficiency and data management across the company.
- Produced regular analytical and statistical reports, providing insights to support operational and strategic business decisions.
- Collaborated with marketing and production teams, facilitating smooth coordination and process optimisation.
- Developed and implemented an inventory improvement plan, reducing obsolete stock by 30%.
